### ATM/ITM:

A machine, usually outside a credit union or bank, from which you can take money out of your account using a special card. On an interactive teller machine, you can talk to a teller on a screen, too.

### Balance:

The amount of money currently in an account.

### Tax:

Money paid to the government, which is based on your income or on the cost of goods or services you have bought.

### Check:

A printed form, used instead of money, to make payments from your account.

### Savings account:

An account where you keep money that pays you interest. Usually money is left for longer than a checking account and designed to help you save. 😊
